For example, "The Bamboo Prince"!!

It's a famous tale about an old man who was cutting bamboo one day when a prince was found in the stalk...

Q...
Quantity isn't everything!

Quality is what counts!

* A riff on "The Tale of the Bamboo Cutter," about a young princess from the moon

The true motivation for his behavior is a forbidden love with his brother.

Eventually the two of them resolve to escape from the moon.

The circumstances of that

...are detailed in "Oloron,"* a special episode of the Bamboo Prince's story.

What?
Do you have it?

In fact, I couldn't find them myself, so I went to the author's house and walked off with the original manuscript, now my treasure.

But I wonder if you know about this...

The prince was sent to Earth as a punishment, and eventually returned to his home planet. Yet in the sequel, he still hasn't wended his ways.

"The Bamboo Prince" .. A masterpiece, isn't it?

Maybe I should switch it up and make it a platonic relationship ship.

You must be in trouble. If you'd like, you can come to my place.

But then he met a handsome boy.

WARMING UP TO THE VIDEO

Underneath the boy was a pirate, the Mikado and his retinue rented rooms at the inn.

I'm...not worthy of a name...

And so they parted, without ever exchanging names...

The next morning, the boy took the Mikado to the shore...

Would you tell me your name?

I'll warm you up.

I'm afraid I don't have anything to eat, but please have some plum wine.

He must be a person of noble birth.

There were  
siblings, a brother  
and sister, who  
were part of a  
golden clan that  
ruled the wind.

The  
time was  
around 300,  
about 300  
years before  
the Reim  
period.

Both  
of them  
and were  
fascinat-  
ed by

Her older  
brother had a  
very feminine  
personality and  
changed his  
form to match  
it in magic,  
but the little  
sister didn't  
think this  
was odd.

Kazabune,  
look! This is  
really inter-  
esting!

Eventually,  
when the  
sister acquired  
the ability  
to travel  
through time  
and space...  
...she became  
able to read and  
compare books  
from every age.

I don't know the circumstances that led to this book becoming a part of the royal court's treasure house...

...but it seems...

Correct.

Each drawing represents one Japanese character.

You didn't just draw the positions randomly.

NOTE LEFT BEHIND:

Dear Kazabune,

Right now, I'm in the Heian period.

However, what's seen more seriously...

Yes.

I haven't seen him since then.

I seem to remember you telling me your brother was pulled from the class after his behavior in wearing women's clothing was discovered. I

If a trans-  
scription of  
the book is  
made and

intact  
through the  
coming  
ages...

In a  
nutshell, it's  
*extremely  
dangerous*  
for that to  
exist in  
this age.

And  
you're  
trying to  
kill...?

...it could  
cause major  
changes in  
history.

All right,  
think of it as  
all of the

vanishing.

Um...

one blunder

could potentially  
wipe out the

...I think  
there's a

Then if  
we get a  
hold of  
that...?!

...It  
becomes  
much  
easier  
to track  
down the

Where  
is this  
catalog?

Most  
likely,  
it's in a  
place...  
...within

No...

I didn't

Then  
let's go!

have to come

This is

And so  
it seems that  
for the time

will have to survive

Warring States.

That's  
right.

You  
mean we  
can't go  
home?

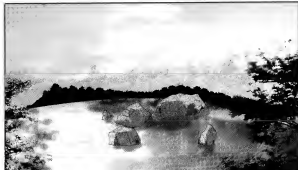

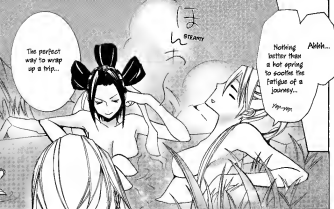

And now it's the tenth day, when we're scheduled to return to our own time...

In the Heian Period (794-1185), soaking in hot water wasn't the custom. Instead, people would either take a steam-bath with their clothes on or take a quick bath in a wooden tub.

The perfect way to wrap up a trip...

Nothing better than a hot spring to soothe the fatigue of a journey...

Ahhh...

ひびひび

But we should head back soon.

After all, Hisa-dono...

...is waiting all by herself, and I'm sure Sebastian is worried, too.

True...

I guess it's time to say farewell to all this.

About that...

I bet I could spend hours here with no sense of time passing...

Yeah, I know exactly what you mean.

Hmm...

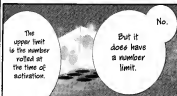

About dear Hisa-dono's hot spring...

What do you think, Totsuki?

I feel a great sense of space.

The sky has never looked so huge to me...

Now I understand.

...Then we can't go home until you roll a six, huh?

For whenever there are a few minutes of free time!

You don't need to read every second.

Yes, I do!

For one thing, the number I roll is random...

...and I can only roll the die once a day.

Well, after all! I always wanna have a book on hand!

Anyway, Kazubue, as soon as you get your power back, just make sure you roll a six!

That'll solve things, won't it?

Sigh...

Say what?!

- Personal Moe Points: Struggling against adverse circumstances, her penchant for suddenly getting excited when she puts together two unlikely male characters for a "coupling", given to making onward down thorny paths. - Special Abilities (Yakui Power: Flower Cages, Flower Charms, etc. (Her yakui power is plant manipulation.)
- Favorite Book Genre: Reads whatever is recommended to her, doubtlessly becoming more and more of a yaoi fan
- Makers: Overflowing with masculinity, which complements Tomoe and the other girls' behavior nicely; excels at producing and creating big things, which is also good for getting the more indoor-oriented ones and the rest out of the house, as she takes them here and there; has the temperament of a crafterman, so is steadily going down the road towards becoming a full-blown yaoi fan.

My

- Special Abilities (Yokai Power): Sewing (She can create a perfect replica of anything by using a needle and thread. She can also manipulate it! ★), finding things
- Favorite Book Genre: Picture books (Cute ones! ♥)
- Nature: Like the mascot of the Yokai Kaicho Fujiwara, but is the owner of even more of a mascot, 893-san. Due to her collector temperament, once she pinpoints the location of an item she's collecting, Hina will suddenly go off on a trip for days at a time.

\* 893-san Hina's guardian seems to be very handy; another role that he plays is keeping Hina's yokai power in check.

• **Special Abilities (Yokai Power):** Ark! She can travel to and from the past and future. The only problem is that once she's in another period, Kozakura has to stay there for a while before being able to return home. ☆!

• **Favorite Book Genre:** Anything, as long as it's erotic! ♥

• **Motors:** Cool and calm. Fascinated with humans, she travels through the ages and collects books. A match for Toriko when it comes to reading voraciously, Kozakura has cultivated the ability to speed read. Apparently she also has the power to determine whether a book has erotic content or not just by looking at the cover.

(Special Abilities (Yokai Power): With an observant eye for good men, her yokai power is still unknown...

- Favorite Book Genre: Boys' love books in which there's a good "top" character

- Likes to read stories where the couple is head-over-heels in love ♥

- Nature: Will do anything to reach her objective and says exactly what's on her mind; usually has her way even when it comes to annoying negotiations, and as a result everyone often gets something out of it; in front of stakes, loyal isn't vain, so when she implores someone, "Let me read that," her pride doesn't waver.
